TECHNOLOGICAL FORECASTING AND SOCIAL CHANGE 33, 395 (1988)

Author Index—Volume 33

Assa, I., 251
Ayres, R.U., 189
Agmon, T., 109

Benarie, M., 149

Choi, H.S., 23, 279

Davidsen, P., 219
Debecker, A., 267

Hannan, M.J., 13
Hoffman, R.B., 311
Hollinshead, M.J., 365

Lee, C.O., 33

McInnis, B.C., 311
Mitchell, W.G., 355
Mitroff, I.I., 1, 83
Modis, T., 267

Munn, R.E., 203

Pauchant, T.C., 83

Raz, B., 251
Richardson, G.P., 219
Robinson, J.B., 325
Rosłanowska-Plichcińska, K., 63

Shannon, K., 299
Shrivastava, P., 83
Simmonds, W.H.C., 297, 377
Sokol, T.C., 55
Southern California Edison, 119
Stekler, H.O., 55
Sterman, J.D., 219
Svidén, O., 159

Udwadia, F.E., 1, 109

Valaskakis, K., 339
Vraets, J.W., 355

TECHNOLOGICAL FORECASTING AND SOCIAL CHANGE 33, 396 (1988)

Book Review Index—Volume 33

Ackoff, R.L., *Management in Small Doses*, (Kish Sharma), 293

Dimancescu, D. and Bodkin, J., *The New Alliance: America's R&D Consortia* (Harold A. Linstone), 179

Gray, D., Solomon, T. and Hetzner, W., eds, *Technological Innovation: Strategies for a New Partnership* (Stephen Tarr), 289

Morone, J.G., and Woodhouse, E.J., *Averting Catastrophe: Strategies for Regulating Risky Technologies* (Harold A. Linstone), 75

Rhodes, E. and Wield, D., eds., *Implementing New Technologies—Choice, Decision and Change in Manufacturing* (James R. Bright), 187

Ward, M.D., ed., *Theories, Models, and Simulations in International Relations: Essays in Honor of Harold Guetzkow* (Joseph F. Coates), 81

Wenk, E., *Tradeoffs: Imperatives of Choice in a High-Tech World* (Harold A. Linstone), 183

TECHNOLOGICAL FORECASTING AND SOCIAL CHANGE 33, 397–398 (1988)

Subject Index to Volume 33

Acid Rain Policy
The policy-cost index approach to modeling change in input-output coefficients: an application to, 13
Alberta
and the two hundred year present, 365

Biology of genius
brain training for the information age, 299
Brain training
for the information age, the new biology of genius, 299

Canada
special issue, 297
Computers
of strategic planning, and education: an Ontario perspective, 355
Computer industry
innovation in the, 267
"Coupled" technology transfer
a logistic curve approach, 251
Crisis management
structure of man-made organizational crises: conceptual and empirical issues in the development of a general theory, 83

Delphi- and delphilike approaches
with special regard to environmental standard setting, 149
Delphi panel-derived scenario
future information systems for road transport, 159
Developing countries
science policy mechanism and technology development strategy in, 279
Direction for technological self-reliance—Korean approaches, 23

Economic view
trade deficits: a look beyond, 109
Editorial
Canadian special issue, 297
Education
of strategic planning, and computers: an Ontario perspective, 355
Engineering
errors of the third kind, 1
Environmental prospects
for the next century: implications for long-term policy and research strategies, 203
Environmental standard setting
delphi- and delphi-like approaches with special regard to, 149
Errors of the third kind
in engineering, 1

Future
unlearning and backcasting, rethinking some of the questions we ask about, 339
Future information systems for road transport
a delphi panel-derived scenario, 159
"Futurism" and "Prospective"
at the crossroads; towards a Canadian synthesis?, 339
Futures research
new starting points, 377

General theory of crisis management
conceptual and empirical issues in the development of; the structure of man-made organizational crises, 83

Information age
brain training for; the new biology of genius, 299
Innovation
in the computer industry, 267

Korean approaches
direction for technological self-reliance, 23

Logistic curve approach
a model of "coupled" technology transfer, 251

Man-made organization crises
conceptual and empirical issues in the development of a general theory of crisis management, 83
Military aircraft cockpit industry
technological change, 55
Modeling
the estimation of petroleum resources in the United States, 219
Modeling change in input-output coefficients
an application to acid rain policy, the policy-cost index approach, 13

Modeling (socio-economic)
evolution of, in Canada, 311

Petroleum resources
in the United States; modeling the estimation of, 219

Ontario
of strategic planning, computers, and education: a perspective, 355

Planning for uncertainty
a case study, 119
Policy-cost index approach
to modeling change in input-output coefficients: an application to acid rain policy, 13
Policy, long term
environmental prospects for the next century: implications for research strategies, 203
Products or processes
measuring the technical-technological state of, 63

R&D infrastructure
the role of government, and for technology development, 33
Research
futures: new starting points, 377
Research strategies
environmental prospects for the next century: implications for long term policy, 203

Road transport
future information systems for, a delphi panel-derived scenario, 159
Role of government
and R&D infrastructure for technology development, 33

Science policy mechanism
and technology development strategy in the developing countries, 279
Socio-economic modeling in Canada
evolution of, 311
Strategic planning
computers, and education: an Ontario perspective, 355

Technological change
in the military aircraft cockpit industry, 55
Technology
the wealth of nations, 189
Technology development
the role of the government and R&D infrastructure for, 33
Technology development strategy
in the developing countries, science policy mechanism, 279
Technical-technological state
of products and processes measuring, 63
Trade deficits
a look beyond the economic view, 109

Unlearning and backcasting
rethinking some of the questions we ask about the future, 339

Wealth of nations
technology, 189
